Nakoraoin te katautau iaon te karau aio e bon bwaka imarenan 20 nakon 40 te katebubua nakoraoina ba ena bon kona n riki n aban nako te aono ni Kiribati, 60 te katebubua ibukin te aono ni Binikiti ao 70 nakon 80 te katebubua ibukin te aono n Raina.

This summary report is prepared as soon as possible by the end of the month, once climate data completed from the operational meteorological stations around Kiribati together with the ENSO information which is received from various Meteorological Agencies around the world. Every effort is made to verify observational data. The Kiribati Meteorological Service does not guarantee the accuracy and reliability of the analysis and rainfall predictions presented, and accepts no liability for any losses incurred through the use of this summary and its contents. The contents of the summary may be freely disseminated provided the source is acknowledged. All enquiries on this report should be directed to the Kiribati Meteorological Service HQ at Temakin Betio.
